**MULTNOMAH COUNTY
PUBLIC SAFETY COORDINATING COUNCIL
VISION, GOALS AND VALUE STATEMENT**

VISION

The Public Safety Coordinating Council's vision for Multnomah County is a quality of life that ensures the personal safety, security and freedom from fear of residents, where all laws are enforced and all crimes have consequences; a thriving, vital and productive community with supportive and healthy environments for children and families; a rich variety of educational, employment and cultural opportunities for all citizens; and a shared sense of community responsibility, accountability and fairness.

GOALS

In light of that vision, the goals of Multnomah County's public safety system are:

- To protect, in order of priority, life, personal safety and property
- To reduce all crime to the maximum extent possible
- To protect and respect the victims of crime
- To protect constitutional principles of fairness, equity and due process
- To change the future behavior of offenders by providing opportunities for offenders to return to their communities as productive citizens.

To achieve these goals, the public safety system should function as an integrated, cost-effective network of public and private agencies in partnership with its citizens and community institutions with joint responsibility for crime prevention, law enforcement, education, employment training, social services, health, adult and juvenile justice and corrections.

An effective public safety system must also be supported by a shared sense of responsibility, accountability and community justice among all participants in the daily life of our communities, including individual citizens, neighborhoods, churches, schools, businesses and government agencies. Finally, the County's public safety system must be accountable to the public, while criminal offenders must be accountable to the law, their victims, and their communities.

Multnomah County's Public Safety Coordinating Council will design, oversee and advocate the foregoing vision and goals, in partnership with the County's public safety agencies and its local communities and guided by an ongoing public dialogue with citizens throughout the County.

VALUES

Multnomah County's public safety system must preserve and promote the following values:

- All public safety policies, strategies and operations in the County should be undertaken with recognition that a **comprehensive, balanced approach to public safety** will advance the goals of Multnomah County's public safety system; and that all **policies, strategies and operations designed to prevent crime must focus on its causes, utilizing valid and reliable data and best practices** which have proven effective in other jurisdictions.
- **The equality, diversity and personal rights** of each individual in the County **must be respected and protected**. Any unfair impact on or bias against the County's minority communities or women which is caused by its public safety system must be eliminated;
- **Secure and healthy children and families, strong and relevant education systems, and a shared sense of community, responsibility and justice** are essential conditions for safe communities. Moreover, **crime prevention and intervention strategies** are essential to prevent youth involvement in crime. Therefore, strategies and programs aimed at reducing the risk of youth involvement in crime and increasing youth involvement in education and healthy social activities must be a primary focus of Multnomah County's public safety system.
- **All of the Council's public safety policies, strategies and programs must be developed and operated in partnerships** with private citizens, organizations and businesses; schools, churches and other associations; and public and private agencies providing health, education, and social services in the County; and be guided by an ongoing public dialogue.
- Progress in achieving Multnomah County's public safety goals must be **measured rigorously and reported regularly to the public** through the use of reliable data and valid outcome evaluations;
- The County's **public safety policies and strategies must first target violent crimes against persons**. However, those policies and strategies must also encourage a **shared sense of security and community justice** throughout the County by focusing on crimes that erode the quality of life and respect for the law in our neighborhoods;
- **The Public Safety Coordinating Council is committed to informing, and being informed by the public** and the media about challenges facing Multnomah County's public safety system and facts regarding the causes and prevention of crime. The Council and public safety agencies in the County must

also gain the public's trust and confidence in the capacity of local government to achieve it's public safety goals, in partnership with the community. The public must be encouraged to assist in preventing and reporting crime.

- **Multnomah County's public safety system must provide a full continuum of law enforcement sanctions and services, which insures that the County's public safety strategies are flexible, comprehensive and cost-effective. Such sanctions and services must include community policing strategies which recognize a shared responsibility between the police and the community in making communities safer and more livable. Community policing encourages a problem solving partnership between citizens and police and emphasizes a customer service orientation that provides supportive, professional services to the community through the promotion of human rights, mutual respect and courtesy.**
